Siemens IQ700 10kg 1600 i-Dos Washing Machine (Silver) (WG56B2A3GB)

SIEMENS

The most economical washing machine ever from Siemens, offering a 30% improvement in energy use compared with the best in class A energy machines when you use the Eco cycle. It is also very frugal with the liquid detergent as it features a tank that you fill up, and it only dispenses the correct amount mount based on the load size and program you have chosen. This well-made machine from Siemens offers a strong 1600 spin speed. It also features a second pump that helps to distribute the water more quickly, and by taking advantage of this it does a 5kg load in just 59 minutes.
