Sony 55" Bravia8 4K - OLED Smart Television - XR Processor (K55XR80PU)

Go big screen with the 55" OLED TV from the Bravia 8 line-up of Sony TV's, sporting the XR processor, this brings out the best from an OLED screen, making the most of the wide contrast range only an OLED screen can deliver. The sound has not been forgotten either, with the sound being radiated from the screen's surface making a very immersive sound experience. It also features a clever foot design that allows them to be positioned in three different ways to accommodate a sound bar or sit on a narrower piece of furniture.

Please note:

Smart functions require a wired or wireless internet connection of at least 3mbps for SD playback, at least 8mps for HD playback and between 16 and 45mbps for UHD playback depending on the content provider

'A Smart TV' or 'Connected TV' is a platform that can run 3rd party Apps. These 3rd party content providers may remove Apps from the Smart TV or connected TV platform or stop supporting them at any time, and we cannot guarantee an App’s continued availability or functionality.

When new TV products are launched, there may also be a delay before certain Apps or services become available.

Availability of and the functionality of Apps are not included within the terms of the manufacturer’s warranty.
